WHEY, OR MILK SERUM,

is deservedly growing in use and repute as one of the most readily available and desirable nutrients for the sick, and as a temporary substitute for whole milk in excessive derangements of infant digestion.

WHEY contains all the salts of milk, the soluble albuminoids and the milk sugar (the caseine and the greater part of the fat only being separated from the milk) when prepared with

FAIRCHILD'S
ESSENCE OF PEPSIN.

Thus a really nutritious fluid food may be surely, speedily, and easily prepared, far richer and more comprehensive in actual nutritive constituents than many costly, so-called "foods," beef elixirs, wines, etc., which have been, over and over again, shown to contain but a mere trace of the characteristic and essential elements of beef, viz., its albuminoids.

FAIRCHILD BROS. & FOSTER,
82 and 84 Fulton St., New York City.

VIN MARIANI

"THE STANDARD PREPARATION OF ERYTHROXYLON COCA."

CAREFUL, continued testing, by upwards of seven thousand practitioners in America, whose written opinions over their signatures (in our possession) are fully in accord and clearly prove the efficacy and merits of "VIN MARIANI," may be thus summarized:

"Diffusible stimulant and tonic in anæmia, nervous depression, sequelæ of childbirth, lymphatism, tardy convalescence, general 'Malaise,' and after wasting fevers.

"Special reference to the nervous system, in all morbid states, melancholia, etc.

"Tonic in laryngeal and gastric complications, stomach troubles.

"All cases where a general toning or strengthening of the system is needed.

"The only tonic stimulant without any unpleasant reaction, and may be given indefinitely, never causing constipation.

N. B.—This Wine has been found always uniform and reliable, owing to the selection of finest ingredients and the greatest accuracy in its manipulation. When prescribing, therefore, the Medical Profession are strongly advised to specify "VIN MARIANI," in order to avoid the substitution of imitations often worthless and consequently disappointing in effect.

Please specify VIN MARIANI.

Per case of Half-Dozen Bottles, . . $6.00
Per case of One Dozen Bottles, 12.00

Definite Chemical Compounds

OF SUPERIOR THERAPEUTIC VALUE.

THE NEW HYPNOTIC:

CHLORALAMID—SCHERING.

As a safe and reliable hypnotic Chloralamid is taking a foremost place. Even in cases where the patients have suffered from painful diseases, sleep has been successfully induced by its administration; the effect is different from that of soporifics, in that it is light, refreshing, and free from after-symptoms. In epilepsy it has been recently shown to be superior to other remedies generally adopted. The dose varies from 15 to 40 grains, and the hypnotic effect is produced within half-an-hour. It is noteworthy that the action of the drug is not deferred, and no craving for it seems to be excited, even by prolonged administration. According to Dr. JOHN GORDON (*Therapist*, 1891, No. 6), Chloralamid proved highly satisfactory in senile insomnia, pulmonary diseases, and hysteria. Another recent contribution to our knowledge of Chloralamid calls attention to its value in quieting the nervous system, and inducing sleep after severe operations. (*Therapist.*)

THE NEW ANTIPYRETIC:

PHENOCOLL Hydrochloride—SCHERING.

Among antipyretics this compound is destined to take a foremost place by virtue of its free solubility which enables it to be very conveniently given and also ensures its prompt and ready absorbtion. According to VON MERING 8 grains reduced the febrile temperature as much as 12 to 16 grains of Antipyrin. HERTEL gave Phenocoll hydrochloride in powder form (in wafer), 1¼ drachms being divided over the 24 hours. In severe articular rheumatism with some fever the remedy has exerted a beneficial action upon the swollen joints, when all other remedies have failed. (*Therapist.*)

THE NEW URIC ACID SOLVENT:

PIPERAZINE—SCHERING.

The most characteristic property of this compound is its power of dissolving uric acid and forming a comparatively freely soluble urate. It takes up in the cold twelve times as much uric acid as carbonate of lithium under the same conditions, and the salt formed (always the neutral urate, even in the presence of excess of acid) is taken up by one-seventh of the volume of water required to dissolve the same quantity of lithium urate. The experience of a number of authors is sufficiently encouraging to justify confidence in the specific curative effect of the remedy. Dr. UMPFENBACH believes the compound may prove a valuable diuretic, while some observers record tonic and stimulant effects. The dose is 15 grains per day, divided in acceptable doses, or dissolved in a quart of mineral water which patient may drink *ad libitum*.

Artificial Legs and Arms with Rubber Feet and Hands

MR A. A. MARKS. DEAR SIR :—I have thoroughly examined the case of the boy Thomas Kehr, of this city, who has been wearing a pair of your Artificial Legs. . . . He was run over by a train of the S. S. R. R, of Long Island, and both of his lower limbs were so crushed that I amputated them, the one well above the knee, the other about one inch and a half below. At the time of the operation many expressed a wish that death would occur, as the lad being poor it was thought that his future would not only be a burden to himself, but that his future support, should he reach man's estate, would depend upon the charity of the public. as it was considered about an impossibility for him to serviceably use Artificial Limbs. I am thankful that I can say that you have made his future worth the living, by giving him the means of good locomotion. I saw him two weeks after he had put them on for the first time, and it astonished me greatly to see the remarkable use he had already acquired; since then I have seen him many times, and have each time seen marked improvement in the freedom of use in walking. Within the past week I saw him walking on the street, without even the help of a cane, and so little lamed that any person seeing him would not for a moment have the least suspicion that he was using legs other than such as nature provided. . . .

I feel competent to say that, in this case, your Artificial Limbs have proved a GRAND SUCCESS. I have never before seen Artificial Limbs which, in action, approached so near that of perfection. I attribute the wonderful success in this boy's case mainly to the superior results achieved by your inventions. Especially can attention be called to the use of the Rubber Foot, thereby dispensing with the ankle-joint, thus giving the wearer an ELASTIC, RELIABLE, and SURE FOOTING, which must greatly relieve him from the care and WATCHFULNESS which must certainly be required by those who wear Artificial Limbs having jointed feet. Your plain and simple mode of construction of Artificial Legs is, to my mind, UNQUESTIONABLY the BEST.

Very respectfully, SAMUEL J. BRADY, M.D.,

97 Division Ave., Brooktyn, E.D., New York.

These Limbs are the most Natural, Comfortable, and Durable. Thousands in daily use. U. S. Government Manufacture.

By a copyright formula, furnished by us on request, applicants can supply us with all the data necessary to secure fit and satisfactory results, while they remain at home. One-half the legs and arms furnished by us are made from measurements and profiles, without our seeing the wearers. This new method is a great convenience for those living at a distance. Fit always guaranteed.

A treatise of 400 pages, with 200 illustrations, and a thousand testimonials, sent free of charge. Address

A. A. MARKS, 701 BROADWAY, NEW YORK CITY.

TO PHYSICIANS: This preparation has been in constant use by many prominent practitioners of medicine for several years, and its beneficial results in the treatment of the diseases indicated, including Syphilitic troubles, have been fully established.

When ordering this preparation, in order to avoid delay or misunderstanding, physicians will please specify "GRIFFITH & CO.'S," or physicians in this city can send their patients direct to our pharmacies, at No. 67 Third Avenue, cor. 11th Street, or 2241 Third Avenue, cor. 122d Street, New York, where, at any time, further information will be cheerfully furnished. Out of town physicians can order through their druggists or direct from us.

We have hundreds of testimonials from prominent physicians who have prescribed and personally used this mixture. It is manufactured for PHYSICIANS' PRESCRIPTIONS only. Always specify "GRIFFITH & CO.'S." If you have an obstinate case of Rheumatism under treatment, inclose one dollar and receive, by express. a regular size bottle, or we will send, upon request, a sample bottle, providing you will pay express charges.

WHOLESALE PRICE LIST.

8-ounce size, - - - $10.50 per doz.
16-ounce size, - - - $20.00 per doz.

In lots of one dozen and upward, we pay the express charges to points east of the Rocky Mountains.

GRIFFITH & CO.'S COMPOUND MIXTURE OF GUAIAC, STILLINGIA, ETC.

After ten years of thorough trial is now considered by Physicians to be the standard remedy for Acute and Chronic Rheumatism, Gout, Lumbago, Neuralgia, and Kindred Complaints.

(Do not overlook this offer, for you may be pleased and possibly surprised at the result, for the general verdict of the profession is, that if this remedy fails to act on a case, it is a difficult matter to find anything that will.)

P. S.—The advertising of this article is confined strictly to Medical Journals.

Very respectfully,

GRIFFITH & CO.,

Chemists and Pharmacists,

67 Third Avenue, cor. 11th Street,
2241 Third Avenue, cor. 122d Street, *NEW YORK CITY.*

Carried in stock by the principal Wholesale Druggists in the U. S.

In absence of anything better, try the above remedy in cases of "La Grippe."

A Theory Demonstrated in Practice,—

THE URIC SOLVENT.

For NEUTRALIZING and ELIMINATING URIC ACID from the BLOOD and thereby removing from the system the disorders caused by it, viz:

DIABETES, BRIGHT'S DISEASE, CYSTITIS, SCIATICA, GOUT, RHEUMATISM, DROPSY, NEURALGIA, AND DISEASES OF THE HEART.

THE URIC SOLVENT is a rational and very effective remedy for all RENAL DISORDERS and those derangements and diseases arising from a defective action of the kidneys. Physicians will find in the URIC SOLVENT a GREAT HELPER in the treatment of the above complaints, it being free from all poisonous drugs. Dispensed by all reliable apothecaries.

PRICE, $1.00 PER BOTTLE.

For URIC SOLVENT Circular, Formula, Treatment, etc., address,

NEW YORK PHARMACEUTICAL CO.,

BEDFORD SPRINGS, MASS.

TWENTY-FIVE YEARS have established the great reputation of

HAYDEN'S

VIBURNUM COMPOUND

IN THE AILMENTS OF WOMEN

and in obstetric practice; it being superior to ERGOT in any and all cases. THE VIBURNUM COMPOUND of Dr. Hayden *antedates* and excels all other special remedies in the cases for which it is recommended, being *perfectly* safe and prompt in action.

Reference: Any of the most distinguished physicians in New York City or elsewhere in this country.

FRELIGH'S TABLETS,

(Cough and Constituent),

FOR THE PREVENTION AND CURE OF

PULMONARY PHTHISIS.

FORMULÆ.

Cough Tablets.

EACH TABLET CONTAINS

Morph. Sulph. ($\frac{1}{50}$ gr.), Atropiæ Sulph. ($\frac{1}{500}$ gr.), Codeia ($\frac{1}{50}$ gr.), Antimony Tart. ($\frac{1}{25}$ gr.), Ipecac, Aconite, Pulsatilla, Dulcamara, Causticum, Graphite, Rhus-tox, and Lachesis, fractionally so arranged as to accomplish every indication in any form of cough.

Constituent Tablets.

EACH TABLET CONTAINS

Arsenicum ($\frac{1}{50}$ gr.), Precipitate Carb. of Iron, Phos. Lime, Carb. Lime, Silica, and the other ultimate constituents, according to physiological chemistry (normally), in the human organism, together with Caraccas, Cocoa, and Sugar.

PRICE, THREE DOLLARS PER DOUBLE BOX.

Containing sufficient Tablets of each kind to last from one to three months, according to the condition of the patient.

A Connecticut physician writes:

"I am now using your Tablets on a patient (young lady), who has had three quite severe hemorrhages the week previous to the beginning of the same. She has taken one box only, has had no return of the hemorrhage, and has gained four (4) pounds since beginning treatment, besides all rational symptoms have improved wonderfully. I will add that I had tried Ol. Morrh., Syr. Hypophos. Co., etc., with no apparent benefit."

A Virginia physician writes:

"Enclosed find Postal Note for another double box Freligh's Tablets. I used the sample box in three cases, with decided benefit in one, slight improvement in second, and while they did not improve the third case, it being in very advanced stage, there was an amelioration of the distressing symptoms."

A Massachusetts physician, in practice 25 years, writes:

"Send me two double boxes Freligh's Tablets. I have tried the sample box with most excellent results."

A Michigan physician writes:

"I am more than pleased with them. They have not disappointed me once. Dr. C., for whom I ordered a box writes me that he is much improved, and speaks in praise of them. He has genuine Tuberculosis, and while I do not think he can recover, yet I firmly believe the Tablets will prolong his life."

SPECIAL OFFER.

While the above formulæ have been in use, in private practice, over 30 years, and we could give testimonials from well-known clergymen, lawyers, and business men, we prefer to leave them to the unbiased judgment of the profession with the following offer: On receipt of 50 cents, and card, letter-head, bill-head, or other proof that the applicant is a physician in active practice, we will send, delivered, charges prepaid, one of the regular (double) boxes (retail price, Three Dollars), containing sufficient of each kind of Tablets to test them three months (in the majority of cases) in some one case. Card, letter-head, or some proof that the applicant is a physician in active practice, MUST accompany each application. Pamphlet, with full particulars, price-list, etc., on request.

A PHOSPHORIZED

CEREBRO-SPINANT.

(FRELIGH'S TONIC.)

Our Special Offer is still open, to send to any physician, on receipt of 25 cents, and his card or letter-head, half a dozen samples, delivered, charges prepaid. Each sample is sufficient to test it for a week in one case.

As we furnish no samples through the trade, wholesale or retail, for samples, directions, price-lists, etc., address,

I. O. WOODRUFF & CO., Manufacturers of Physicians' Specialties,

88 Maiden Lane, New York City.

PEACOCK'S BROMIDES

(SYR: BROM: COMP: PEACOCK.)

Each fluid drachm represents 15 grains of the Combined C. P. Bromides of Potassium, Sodium, Calcium, Ammonium and Lithium.

USES: EPILEPSY, UTERINE CONGESTION, HEADACHE, AND ALL CONGESTIVE, CONVULSIVE AND REFLEX NEUROSES.

This preparation produces results, which can not be obtained from the use of commercial Bromide substitutes.

DOSE.—One to two FLUID drachms, in WATER, three or more times a day.

PEACOCK'S FUCUS MARINA

(ELIX: FUCI MAR: PEACOCK.)

From Sea Weed. **Uses: Malaria, Phthisis, Etc.**

An ALLY of quinine—quinine CHECKS the Malarial Chill; Fucus Marina ELIMINATES the Malarial CAUSE; and thus prevents the recurrence of the Chill *after* it has been *checked* by quinine.

An INVALUABLE REMEDY in the treatment of Phthisis—it arrests the decay of lung tissue, diminishes the fever, lessens the cough, abates the soreness in the lungs, improves the appetite, and impedes the progressive emaciation.

DOSE.—One Teaspoonful IN WATER, four times a day.

CHIONIA FROM CHIONANTHUS.

Uses: Biliousness, Jaundice, Dyspepsia, Constipation, and all Diseases Caused by Hepatic Torpor.

CHIONIA stimulates the Liver and restores it to a healthy condition, without debilitating the system by Catharsis; does not purge, per se, but under its use the Liver and Bowels gradually resume their normal functions.

DOSE.—One Fluid Drachm three times a day.

PEACOCK CHEMICAL CO., ST. LOUIS.

DR. MASSEY'S
Private Sanitarium

212 SOUTH FIFTEENTH ST.,

PHILADELPHIA.

This institution, in addition to complete arrangements for the treatment of Nervous Diseases by rest, electricity, massage, etc., under comfortable surroundings, is specially equipped for the treatment of cases of Fibroid Tumors and other intractable diseases of the pelvic viscera, by the conservative use of strong electric currents. For particulars, address

DR. G. BETTON MASSEY,

212 S. Fifteenth St., Philadelphia.

PARRISH'S HOME FOR INVALIDS, at Burlington, N. J.

JOSEPH PARRISH, M.D., Founder and Physician-in-Chief.
WM. G PARRISH, M.D., Associate.

This is emphatically a family home, with the privacy and freedom of domestic life. The patients, being under the counsel and guidance of experienced physicians, may often avoid the alternative of commitment to a public asylum or hospital.

Disappointment, loss of property, grief, mental strain and worry, overwork, excess in the use of stimulants and narcotics, hysteria, are frequently associated with, or complicated by, Neuralgia, Rheumatism, Gout, Dyspepsia, and even Lung troubles, for all of which appliances are available, in the way of Baths—Russian, Medicated, Massage, Electricity, etc., and the *Oxygen Treatment*, the value of which in incipient Throat and Lung Diseases is generally conceded. An attractive feature of the Home treatment is the removal of the family during the summer to a country seat in the vicinity, or to the seaside, mountains, or other resort, accompanied by the superintendent and staff.

Terms are arranged with or for each person according to circumstances and requirements. For further information, call on or address

DR. MEIGS CASE'S

SPINAL APPARATUS.

MEANS AFFORDED.

1. Appropriate exercise under elast'c extension, with no restrictive appliance.
2. Continued extension made endurable by change in position, sitting, standing, or walking.
3. Perfect support, balance, and guidance in locomotion.

RESULTS OBTAINED.

1. The absolute and speedy cure, without deformity, of recent cases of Pott's Disease and Lateral Curvature.
2. Immediate relief, followed by permanent cure, in acute Pott's Disease, either before or after supervention of abscess or paraplegia.
3. Deformity lessened, and attending complications alleviated in all chronic curvatures in adults or youth.
4. Normal growth stimulated in children dwarfed by disease.
5. Spinal irritation relieved, and ultimately, with its causes, removed.
6. Remarkable improvement in the condition of children suffering from defective innervation, lack of muscular power or nervous inco-ordination, with inability to articulate distinctly and to control the use of the limbs.

These claims are not merely theoretical; they have been abundantly established by actual use of the apparatus.

Fig. 1.

THE "MASTER"

SURGICAL ELASTIC STOCKINGS,

FOR VARICOSE VEINS, WEAK AND SWOLLEN JOINTS, DROPSY OF THE LIMBS, SPRAINS, ETC.

Provided with the Patent Non-Elastic **STAYS AND ADJUSTING LOOPS**, by the aid of which they can be drawn on easily, like pulling on a boot. They will last much longer than the old style, as the stays prevent them from being torn apart in drawing them on. All kinds and sizes in thread or silk elastic.

Fig. 1.—The Old Style discarded on account of pulling apart, while the elastic is still in good condition.

Fig. 2.—The New Style cannot pull apart and consequently lasts until worn out.

FOR PRICE-LIST AND FULL PARTICULARS IN REGARD TO SPINAL APPARATUS AND ELASTIC STOCKINGS, APPLY TO

POMEROY COMPANY, 785 BROADWAY, N. Y.

BROMIDIA

THE HYPNOTIC.

FORMULA.—Every fluid drachm contains fifteen grains EACH of Pure Chloral Hydrat. and purified Brom. Pot. and one-eighth grain EACH of gen. im. ext. Cannabis Ind. and Hyoscyam.

DOSE.—One-half to one fluid drachm in WATER or SYRUP every hour, until sleep is produced.

INDICATIONS.—Sleeplessness, Nervousness, Neuralgia, Headache, Convulsions, Colic, Mania, Epilepsy, Irritability, etc. In the restlessness and delirium of fevers it is absolutely invaluable.

IT DOES NOT LOCK UP THE SECRETIONS.

PAPINE

THE ANODYNE.

Papine is the Anodyne or Pain-relieving Principle of Opium, the Narcotic and Convulsive Elements being Eliminated. It has Less Tendency to Cause Nausea, Vomiting, Constipation, etc.

INDICATIONS.—Same as Opium or Morphia.

DOSE.—ONE FLUID DRACHM—(represents the Anodyne principle of one-eighth grain of Morphia.)

IODIA

THE ALTERATIVE AND UTERINE TONIC.

FORMULA.—Iodia is a combination of active principles obtained from the Green Roots of Stillingia, Helonias, Saxifraga, Menispermum and Aromatics. Each fluid drachm also contains five grains Iod. Potas., and three grains Phos. Iron.

DOSE.—One or two fluid drachms (more or less as indicated) three times a day, before meals.

INDICATIONS.—Syphilitic, Scrofulous and Cutaneous Diseases, Dysmenorrhea, Menorrhagia, Leucorrhea, Amenorrhea, Impaired Vitality, Habitual Abortions and General Uterine Debility.

APIOLIN-CHAPOTEAUT.

The True Active Principle of Parsley.

Professor Laborde's (Paris) experiments on animals indicate that it "stimulates the circulatory apparatus, causing uterine vascular congestion and excitement of the reflex and vaso-motor centres. The general conclusion, therefore, from a practical point of view, is that the drug is indicated in certain cases of genito-spinal atony and especially in dysmenorrhœa.—*Un. Med. Mag.*

Shoemaker's Materia Medica and Therapeutics says:

"In cases of scanty or deficient menstruation with pain, etc., one capsule can be given after meals, thrice daily for a week before the expected period, as recommended by Dr. Fordyce Barker.

℞ Apiolini grm. IV. (about ʒj),
ft. Capsule No. xx (Chapoteaut).
Sig: Take three each day during the week preceding menstruation.

"It is especially appropriate when amenorrhœa depends upon anæmia."

Dr. R. Hill, before the Washington, D.C., Medical Society, Feb. 16, 1891, reported five cases of dysmenorrhœa treated by him at the Central Dispensary and concludes the paper in these words: "Apiolin is decidedly the most reliable drug that I have yet used in dysmenorrhœa. In all the cases I have so treated, relief has invariably resulted."

In phials of 24 capsules containing 20 centigrammes of Apiolin in each, $1.00.

MORRHUOL.

Morrhuol (Extractum Olei Morrhuæ Alcoholicum), is dispensed in capsules, each of which represents the medicinal qualities of one teaspoonful of Cod Liver Oil.

PRINCIPAL EFFECTS.—Increase of appetite, abatement of cough, regularity of digestion and stools, promotion of sound sleep, and strength.

THERAPEUTIC APPLICATION.—In Bronchitis, Rickets, Scrofula, and wherever Cod Liver Oil is usually exhibited with advantage.

Professor German Sée says: "I employ with success a special extract of Cod Liver Oil known as Morrhuol, one gramme of which represents 25 of the crude drug. It is certain that this remedy is not only tolerated but absorbed, and that its anti-emaciative properties are the same as the oil."—*Regime Alimentaire.*

Dr. Lafage writes: "Under the influence of Morrhuol (6 to 8 capsules in 24 hours) the cough is rapidly lessened in violence, the appetite returns, the assimilation of food becomes more perfect, the complexion improves in tint and th patient experiences an increase of strength."—*Bulletin Thérapeutique.*

One hundred capsules, $1.00.

MORRHUOL CRÉOSOTÉ.

"By dissolving pure creosote in Morrhuol, which is not fatty, but has all the remedial properties of Cod Liver Oil, the assimilation of creosote is considerably facilitated.

"*Morrhuol Créosoté* (*Chapoteaut*) is dispensed in small, spherical capsules containing in each three grains of Morrhuol (the active principle of Cod Liver Oil), with one grain of pure beechwood creosote (the richest in guaiacol).

"While partaking of the hyperalimentary character of Cod Liver Oil, and of the specific microbicide action of creosote, we have in *Morrhuol Créosoté* a remedy which will prove under suitable hygienic conditions to be of great value in the treatment of pulmonary phthisis."—*Tribune Medicale*, Jan., 1889.

Original bottles, $1.00.

SANTAL-MIDY.

In gonorrhœa and all forms of urethritis *Santal-Midy* replaces copaiba, cubebs, and the ordinary remedies, without producing eructations, offensive odor, or diarrhœa, and the discharge is reduced to a slight oozing in 48 hours.

In chronic catarrh and suppurating nephritis, *Santal-Midy* has a soothing action on the mucous surfaces, it rapidly diminishes the secretion of pus, it assists the elimination of urine in nephritic colic and cures the most obstinate cases of cystitis and inflammation of the neck of the bladder.

Dr. Posner stated before the Berlin Medical Society: "Much depended on the purity of Sandal Oil, many qualities of which are found in commerce. The best form was the French preparation known as *Santal-Midy*, put up in elegant little capsules, which were easily taken and well supported."—*Medical Record.*

Santal-Midy is distilled from the best Mysore sandal wood, and is dispensed in small, spherical capsules. Dose, 6 to 12 capsules daily. Original bottles contain 40 capsules. $1.00.

THE ABOVE ARE MANUFACTURED IN THE LABORATORIES OF

RIGAUD & CHAPOTEAUT, Paris.

Importers, E. FOUGERA & CO., New York.

THE FIRST RAW FOOD EXTRACT.

(Introduced to the Medical Profession in 1878.)

BOVININE

THE VITAL PRINCIPLES OF BEEF CONCENTRATED.

CONTAINING 26 PER CENT. OF COAGULABLE ALBUMEN.

AN IDEAL FOOD. PALATABLE. KEEPS PERFECTLY.

BOVININE consists of the Juices of Lean Raw Beef obtained by a mechanical process, neither heat nor acid being used in its preparation. The nutritious elements of lean raw beef are thus presented in a concentrated solution, no disintegration or destruction of the albumen having taken place. The proteids in solution amount to 26 per cent. of the weight of the preparation, and give to it the great dietetic value it possesses in all conditions where a concentrated and readily assimilable food is needed.

BOVININE is easily digested and COMPLETELY absorbed from the intestinal tract, thus furnishing an extremely valuable nutrient in Typhoid Fever, after surgical operations in the abdominal regions, in all diseased conditions of the intestinal tract characterized by ulceration or acute and chronic inflammation, and in diarrhœic complaints.

BOVININE, containing as it does all the nutrient properties of lean raw beef in a highly concentrated form, furnishes to the Medical Profession a reliable and valuable aid to treatment in Phthisis, Marasmus of both young and old, in all wasting diseases, in continued fevers, and in supporting treatment.

BOVININE, on account of its BLOOD-MAKING PROPERTIES is *especially* of service after surgical operations, in cases of severe injuries attended with great loss of blood, and in the puerperal state.

BOVININE, for rectal feeding, is unsurpassed in excellence, having been used for weeks continuously with no irritation or disturbance resulting. The most satisfactory results from its use as an enema are obtained by adding to each ounce of **BOVININE** ten grains of Pancreatic Extract and two ounces of water. This should be well mixed and injected slowly. No preparation of opium is necessary in the enema.

SAMPLES will be furnished to any member of the Medical Profession free, carriage paid, upon application to the company.

PREPARED ONLY BY

OR

Carnrick's Kumyss Tablets

A PRODUCT OF PURE, SWEET MILK, PALATABLE, NUTRITIOUS,
EASILY DIGESTED,
AND WHEN DISSOLVED IN WATER FORMS
A DELICIOUS EFFERVESCENT KUMYSS.

Put up in air-tight bottles, in two sizes; the larger holding sufficient Tablets for seven twelve-ounce bottles, and the smaller sufficient for three twelve-ounce bottles of Kumyss.

THIS PREPARATION is presented to the Medical Profession in the convenient form of Tablets, and will be found superior in every respect to ordinary *Kumyss*, *Wine of Milk*, *Fermented Milk*, or any similar preparation.

Kumysgen when prepared for use contains every constituent of a perfect Kumyss.

Kumysgen is made from fresh, sweet milk, and contains fully thirty per cent. of soluble casein, which is double the amount found in ordinary Kumyss preparations.

Kumysgen being in Tablet form, will keep indefinitely, is easily and readily prepared, less expensive than the ordinary variable and perishable Kumyss, and its *fermentative action* may be regulated at will, thus rendering it available at all times and under all circumstances.

Clinical tests gathered from every quarter of the globe attest its special value in all cases of *Gastric* and *Intestinal Indigestion* or *Dyspepsia*, *Pulmonary Consumption*, *Constipation*, *Gastric and Intestinal Catarrh*, *Fevers*, *Anæmia*, *Chlorosis*, *Rickets*, *Scrofula*, *Vomiting in Pregnancy*, *Bright's Disease*, *Intestinal Ailments of Infants*, *Cholera Infantum; or young children and for convalescents from all diseases.*

The casein being fine y subdivided, it is especially valuable for all who require an easily digested or a partially digested Food.

Kumysgen is a delicious effervescent Food-Beverage, relished alike by the sick or well.

Kumysgen is tonic, stimulant, diuretic, highly nutritious, easily digested, perfectly palatable, and always *permanent* and *uniform* in strength.

Platt's Chlorides,

The True Disinfectant.

Eleven years of practical daily use, by tens of thousands of intelligent physicians, and by hundreds of thousands of careful housekeepers, has established beyond doubt the value, the usefulness, and the superiority of Platt's Chlorides.

An odorless liquid, clean, stainless, powerful, efficient, and economical, it is peculiarly adapted to all the sanitary needs of the sick-room, and the hygienic demands of the household.

Platt's Chlorides is sold in quart bottles only, and by nearly every apothecary in every city, town or village in the United States. Should there be any practicing physician anywhere who m aynot as yet personally know its value, a sample with descriptive circulars, etc., will be gladly furnished free. Address, giving both Post and Express Offices,

HENRY B. PLATT, 36 Platt St., N. Y.

JOHNSTON'S FLUID BEEF.

This preparation of beef has won the favor of medical men and others who have witnessed its beneficial effects. Whilst all other extracts of beef contain only the soluble elements of the flesh, and are, therefore, useful only for their *stimulating* effects on the system, JOHNSTON'S EXTRACT (or FLUID BEEF) contains within itself the entire *nutritive* properties of the best beef, assuring both the *stimulating* and *strengthening* properties of a meat diet.

It is *unmedicated*, and is not offered as in any sense a medicine. Dr. Harkness, whose analysis we present, pronounces JOHNSTON'S FLUID BEEF a *perfect food.*

By WM. HARKNESS, F.C.S.L., Analytical Chemist to the British Government.

LABORATORY, Somerest House, London, Eng.

I have made a very careful chemical analysis and microscopical examination of JOHNSTON'S FLUID BEEF, and find it to contain in every 100 parts—

Moisture,	26.14	
Albumen and Gelatin,	21.81	Nitrogenous or
Fibrin in a readily-soluble form,	37.48	flesh-forming food.
Ash or Mineral Matter,	14.57—100.00.	

The mineral matter is rich in phosphates. The microscopical examination shows the FLUID BEEF to contain good sound beef, ground to a very fine powder. There is not the slightest trace of fungus, spores, or any other organism which would tend to produce decomposition. I consider this a most valuable preparation *combining, as it does, a concentrated Extract of Beef with the solid beef itself,*—the latter being in a form easily digested.

JOHNSTON'S FLUID BEEF IS A SUBSTANTIAL FOOD FOR BRAIN, NERVE, BONE AND MUSCLE.

JOHNSTON'S FLUID BEEF IS THE HIGHEST FORM OF NUTRIMENT ADAPTED TO THE FEEBLEST DIGESTIVE POWERS.

Many of our most eminent physicians are prescribing this Extract, and have testified their satisfaction as to the results obtained. GENERAL AGENTS FOR THE UNITED STATES,

QUICKINE

OUR NEW ANTISEPTIC, ANTIPYRETIC AND ANTIZYMOTIC.

IS RAPIDLY COMING INTO DAILY USE.

DR. CHICHESTER writes: "I get splendid results from its use. Quickine is a great convenience, of inestimable value in a physician's office."

DR. J. B. CONKLIN writes: "It has no equal."

DR. F. E. MILLER writes: "Every physician in the civilized world will be glad to use it."

We have received reports already from over 1000 physicians recommending the use of QUICKINE in diseases of the throat, nose, eye, and ear, parasitical skin diseases, sores, ulcers, etc., used externally as a spray, gargle, injection, wash, etc., and in the various fevers and germ diseases used internally.

QUICKINE is put up in one style only, 8 oz. bottles, and we guarantee its absolute accuracy and uniformity. It is pronounced an ideal remedy for a physician's use, both in his office business and in prescribing. Is advertised strictly and only to the medical profession, and sold by first class druggists everywhere at about 40 cents a bottle. Pamphlet and testimonials mailed free. STANDARD CHEMICAL CO., JERSEY CITY, N. J.

HENRY K.

Caffein Hydrobromate,	1 Gr.
Antipyrene,	3 Grs.
Sodium Bromide,	15 Grs.

Special Combinations Speedily and Carefully Prepared.

DR. McMUNN'S Elixir of Opium.

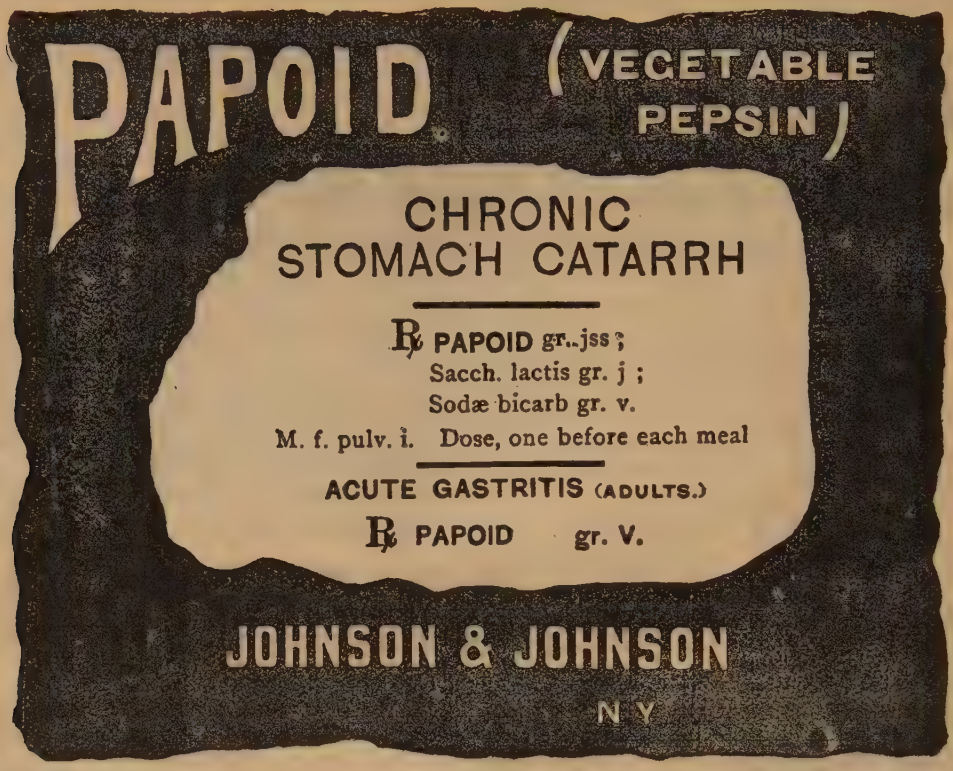
AN INVALUABLE DISCOVERY IN THE PREPARATION OF OPIUM.

It contains all the valuable medicinal properties of Opium in natural combination, to the exclusion of all its noxious, deleterious, useless principles upon which its bad effects depend. It possesses all the sedative, anodyne, and antispasmodic powers of Opium: To produce sleep and composure, to relieve pain and irritation; nervous excitement and morbid irritability of body and mind; to allay convulsive and spasmodic actions, etc; and being purified from all the noxious and deleterious elements, its operation is attended by no sickness of the stomach, no vomiting, no costiveness, no headache, nor any derangement of the constitution or general health. Hence its high superiority over Laudanum, Paregoric, Black Drop, Denarcotized Laudanum., and every other Opiate preparation.

CAUTION.

On account of its large sale, spurious articles are offered in bulk. The genuine is sold only in vials of about 7 drachms, with yellow wrappers and signature of Jno. B. McMunn.

E. FERRETT, Agent, 372 Pearl Street, New York.



Salicylic Acid from Oil of Wintergreen.

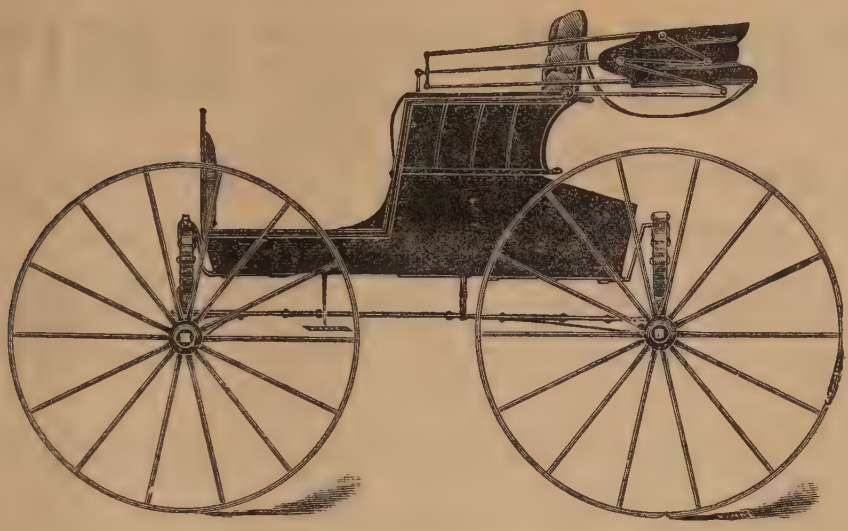
It is a well-established fact that the synthetic Salicylic Acid made from Coal Tar, as also all Coal Tar derivatives, have a more or less disturbing effect on the pneumo-gastric nerve. But the synthetic Salicylic Acid is almost invariably used, as it costs only one-tenth of that made from Oil of Wintergreen, which is the natural source of Salicylic Acid.

In order to enhance, if possible, the therapeutic action of Tongaline, to relieve it from any unpleasant effects and to improve the taste, all the Salicylic Acid used in it will be made from Oil of Wintergreen and not from Coal Tar.

We feel assured therefore that the medical profession will appreciate our efforts and will find that there is no better vehicle than Tongaline for the administration of the Salicylates.

FORMULA:—Each fluid drachm represents—Tonga, thirty grains; Extractum Cimicifugin, Racemosae, two grains; Sodium Salicylate, ten grains; Pilocarpin Salicylate, one-hundredth of a grain; Colchicin Salicylate, one five-hundredth of a grain.

MELLIER DRUG COMPANY . . St. Louis.



HAVING leased the entire five-story building, N. E. Cor. Arch and Twelfth Streets, for a term of years, we have fitted it up for the manufacture and sale of fine Carriages, Harness, etc., etc.

In our *three show rooms* (passenger elevator to each floor) you will always find a full assortment of Carriages of our own manufacture, with which the public has long been familiar. In addition, we shall keep in stock all the latest novelties in Oak and Painted work.

As our shops here are fully equipped for doing *First-class Repair Work* with dispatch, we have discontinued the shops at 1707 and 1709 Filbert Street. We solicit your valuable patronage, and guarantee satisfaction in every particular. Entrance to Repair Shops on Twelfth Street.

Having made a Specialty of PHYSICIANS' CARRIAGES for a number of years, we feel we can fully satisfy the demand for THOROUGH WORK at MODERATE PRICES.

IMPORTANT ANNOUNCEMENT. IN PREPARATION.

PSYCHOPATHIA SEXUALIS,

WITH ESPECIAL REFERENCE TO

Contrary Sexual Instinct.

BY

Dr. R. von KRAFFT-EBING,
Professor of Psychiatry and Neurology in the University of Vienna.

Authorized Translation of the Seventh German Edition

BY

CHARLES GILBERT CHADDOCK, M.D.,
Assistant Medical Superintendent Northern Michigan Asylum; Fellow of the Chicago Academy of Medicine.

Prof. von Krafft-Ebing's study of the psychopathology of the sexual life was, when first published, a small monograph; but in the seven editions through which it has passed so rapidly it has received so many additions and been made to cover so completely every aspect of the anomalies of the sexual sphere that the work now deserves the name of a treatise. It easily supersedes all previous attempts to treat this important subject scientifically; and it is sure to commend itself to members of the medical and legal professions as a scientific explanation of many social and criminal enigmas to which no work in English offers a solution.

The work will be sold only by SUBSCRIPTION to MEMBERS OF THE MEDICAL AND LEGAL PROFESSIONS.

THE F. A. DAVIS COMPANY, Publishers,

1231 Filbert Street, Philadelphia, Pa.

Medical Publications of F. A. Davis, Philadelphia.

CAPP

The Daughter. Her Health, Education, and Wedlock.

HOMELY SUGGESTIONS TO MOTHERS AND DAUGHTERS.

By WILLIAM M. CAPP, M.D., Philadelphia. This is just such a book as a family physician would advise his lady patients to obtain and read. It answers many questions which every busy practitioner of medicine has put to him in the sick-room at a time when it is neither expedient nor wise to impart the information sought.

It is complete in one beautifully printed (large, clear type) 12mo volume of 150 pages. Attractively bound in Extra Cloth.

Price, post-paid, in the United States and Canada, $1.00, net; In Great Britain, 5s. 6d.; France, 6 fr. 20.

In the 144 pages allotted to him he has compressed an amount of homely wisdom on the physical, mental, and moral development of the female child from birth to maturity which is to be found elsewhere in only the great book of experience. It is, of course, a book for mothers, but is one so void of offense in expression or ideas that it can safely be recommended for all whose minds are sufficiently developed to appreciate its teachings.—*Philadelphia Public Ledger.*

Many delicate subjects are treated with skill and in a manner which cannot strike any one as improper or bold. The absolute ignorance in which most young girls are allowed to exist, even until adult life, is often productive of much misery, both mental and physical. Quite a number of books written by physicians for popular use have been prepared in such a way that the professional man can read between the lines strong bids for popular favor, etc. These objectionable features will not be found in Dr. Capp's *brochure*, and for this reason it is worthy the confidence of physicians.—*Medical News.*

CATHELL

Book on the Physician Himself

AND THINGS THAT CONCERN HIS REPUTATION AND SUCCESS.

By D. W. CATHELL, M.D., Baltimore, Md. Being the NINTH EDITION (enlarged and thoroughly revised) of the "Physician Himself, and what he should add to his Scientific Acquirements in order to Secure Success." In one handsome Octavo Volume of 298 pages, bound in Extra Cloth.

Thousands of physicians have won success in their chosen profession through the aid of this invaluable work.

This remarkable book has passed through eight (8) editions in less than five years. It has just undergone a thorough revison by the author, who has added much new matter covering many points and elucidating many excellent ideas not included in former editions.

Price, post-paid, in the United States and Canada, $2.00, net; in Great Britain, 11s. 6d.; France, 12 fr. 40.

I am most favorably impressed with the wisdom and force of the points made in "The Physician Himself," and believe the work in the hands of a young graduate will greatly enhance his chances for professional success.—*From Prof. D. Hayes Agnew, Phila., Pa.*

We strongly advise every actual and intending practitioner of medicine or surgery to have "The Physician Himself," and the more it influences his future conduct the better he will be.—*From the Canada Medical and Surgical Journal, Montreal.*

In the present edition the entire work has been revised and some new matter introduced. The publisher's part is well done; paper is good and the print large; altogether it is a very readable and enjoyable book.—*Montreal Medical Journal*

We have read it carefully and regret much that we had not done so earlier and followed its precepts. The book is full of good advice. Get it at once.—*Pacific Record of Medicine and Surgery.*

We cannot imagine a more profitable investment for the junior practitioner than the purchase and careful study of "The Physician Himself."—*Occidental Medical Times.*

To the physician who has discovered that there is something else besides dry book-learning needed to make him a desirable visitor at the bedside, we commend this volume, that he may assimilate some of the ready crystallized worldly wisdom which otherwise he may be many years acquiring by natural processes.—*North Carolina Medical Journal.*

Medical Publications of F. A. Davis, Philadelphia.

MASSEY

Electricity in the Diseases of Women.

WITH SPECIAL REFERENCE TO THE APPLICATION OF STRONG CURRENTS.

By G. BETTON MASSEY, M.D., Physician to the Gynæcological Department of the Howard Hospital; late Electro-therapeutist to the Philadelphia Orthopædic Hospital and Infirmary for Nervous Diseases; Member of the American Neurological Association, of the Philadelphia Neurological Society, of the Franklin Institute, etc. SECOND EDITION. Revised and Enlarged. With New and Original Wood-Engravings. Handsomely bound in Dark-Blue Cloth. 249 pages. 12mo. *No. 5 in the Physicians' and Students' Ready-Reference Series.*

This work is presented to the profession as the most complete treatise yet issued on the electrical treatment of the diseases of women, and is destined to fill the increasing demand for clear and practical instruction in the handling and use of strong currents after the recent methods first advocated by Apostoli. The whole subject is treated from the present stand-point of electric science *with new and original illustrations*, the thorough studies of the author and his wide clinical experience rendering him an authority upon electricity itself and its therapeutic applications. The author has enhanced the practical value of the work by including *the exact details* of treatment and results in a number of cases taken from his private and hospital practice.

Price, post-paid, in the United States and Canada, $1.50, net; in Great Britain, 8s. 6d.; in France, 9 fr. 35.

A new edition of this practical manual attests the utility of its existence and the recognition of its merit. The directions are simple, easy to follow and to put into practice; the ground is well covered, and nothing is assumed, the entire book being the record of experience.—*Journal of Nervous and Mental Diseases.*

It is only a few months since we noticed the first edition of this little book; and it is only necessary to add now that we consider it the best treatise on this subject we have seen, and that the improvements introduced into this edition make it more valuable still.—*Boston Medical and Surgical Journ.*

The style is clear, but condensed. Useless details are omitted, the reports of cases being pruned of all irrelevant material. The book is an exceedingly valuable one, and represents an amount of study and experience which is only appreciated after a careful reading.—*Medical Record.*

MANTON

Childbed; Its Management; Diseases and Their Treatment.

By WALTER P. MANTON, M.D., Visiting Physician to the Detroit Woman's Hospital; Consulting Gynæcologist to the Eastern Michigan Asylum; President of the Detroit Gynæcological Society; Fellow of the American Society of Obstetricians and Gynæcologists, and of the British Gynæcological Society; Member of Michigan State Medical Society, etc. In one neat 12mo volume, *No. in the Physicians' and Students' Ready-Reference Series.* IN PREPARATION.

Medical Bulletin.

A MONTHLY JOURNAL OF MEDICINE AND SURGERY.

Edited by JOHN V. SHOEMAKER, A.M., M.D. Bright, original, and readable. Articles by the best practical writers procurable. Every article as brief as is consistent with the preservation of its scientific value. Therapeutic Notes by the leaders of the medical profession throughout the world. These, and many other unique features, help to keep THE MEDICAL BULLETIN in its present position as the leading low-price Medical Monthly of the world. Subscribe now.

TERMS: $1.00 a year in advance in United States, Canada, and Mexico.
Foreign Subscription Terms: England, 5s.; France, 6 fr.; Germany, 6 marks; Japan, 1 yen; Australia, 5s.; Holland, 3 florins.

HARE

Epilepsy: Its Pathology and Treatment.

BEING AN ESSAY TO WHICH WAS AWARDED A PRIZE OF FOUR THOUSAND FRANCS BY THE ACADEMIE ROYALE DE MEDECINE DE BELGIQUE, DECEMBER 31, 1889.

By HOBART AMORY HARE, M.D. (Univ. of Penna.), B.Sc., Professor of Materia Medica and Therapeutics in the Jefferson Medical College, Phila.; Physician to St. Agnes' Hospital and to the Children's Dispensary of the Children's Hospital; Laureate of the Royal Academy of Medicine in Belgium, of the Medical Society of London, etc.; Member of the Association of American Physicians.

No. 7 in the Physicians' and Students' Ready-Reference Series. 12mo. 228 pages. Neatly bound in Dark-blue Cloth.

Price, post-paid, in United States and Canada, $1.25, net; in Great Britain, 6s. 6d.; in France, 7 fr. 75.

It is representative of the most advanced views of the profession, and the subject is pruned of the vast amount of superstition and nonsense that generally obtains in connection with epilepsy.—*Medical Age.*

Every physician who would get at the gist of all that is worth knowing on epilepsy, and who would avoid useless research among the mass of literary nonsense which pervades all medical libraries, should get this work."—*The Sanitarian.*

It contains all that is known of the pathology of this strange disorder, a clear discussion of the diagnosis from allied neuroses, and the very latest therapeutic measures for relief. It is remarkable for its clearness, brevity, and beauty of style. It is, so far as the reviewer knows, altogether the best essay ever written upon this important subject.—*Kansas City Medical Index.*

The task of preparing the work must have been most laborious, but we think that Dr. Hare will be repaid for his efforts by a wide appreciation of the work by the profession; for the book will be instructive to those who have not kept abreast with the recent literature upon this subject. Indeed, the work is a sort of Dictionary of epilepsy—a reference guide-book upon the subject.—*Alienist and Neurologist.*

HARE

Fever: Its Pathology and Treatment.

BEING THE BOYLSTON PRIZE ESSAY OF HARVARD UNIVERSITY FOR 1890. CONTAINING DIRECTIONS AND THE LATEST INFORMATION CONCERNING THE USE OF THE SO-CALLED ANTIPYRETICS IN FEVER AND PAIN.

By HOBART AMORY HARE, M.D. (Univ. of Penna.), B.Sc., Professor of Materia Medica and Therapeutics in the Jefferson Medical College, Phila.; Physician to St. Agnes' Hospital and to the Children's Dispensary of the Children's Hospital; Laureate of the Royal Academy of Medicine in Belgium, of the Medical Society of London, etc.; Member of the Association of American Physicians.

No. 10 in the Physicians' and Students' Ready-Reference Series. 12mo. Neatly bound in Dark-blue Cloth.

Illustrated with more than 25 new plates of tracings of various fever cases, showing beautifully and accurately the action of the Antipyretics. The work also contains 35 carefully prepared statistical tables of 249 cases showing the untoward effects of the antipyretics.

Price, post-paid, in the United States and Canada, $1.25, net; in Great Britain, 6s. 6d.; in France, 7 fr. 75.

As is usual with this author, the subject is thoroughly handled, and much experimental and clinical evidence, both from the author's experience and that of others, is adduced in support of the view taken.—*New York Medical Abstract.*

The author has done an able piece of work in showing the facts as far as they are known concerning the action of antipyrin, antifebrin, phenacetin, thallin, and salicylic acid. The reader will certainly find the work one of the most interesting of its excellent group, the *Physicians' and Students' Ready-Reference Series.*—*The Dosimetric Medical Review.*

Such books as the present one are of service to the student, the scientific therapeutist, and the general practitioner alike, for much can be found of real value in Dr. Hare's book, with the additional advantage that it is up to the latest researches upon the subject.—*University Medical Magazine.*

Medical Publications of F. A. Davis, Philadelphia.

PRICE and EAGLETON

Three Charts of the Nervo-Vascular System.

PART I.—THE NERVES. PART II.—THE ARTERIES.
PART III.—THE VEINS.

A New Edition, Revised and Perfected. Arranged by W. HENRY PRICE, M.D., and S. POTTS EAGLETON, M.D. Endorsed by leading anatomists. Clearly and beautifully printed upon extra durable paper.

PART I. The Nerves.—Gives in a clear form not only the Cranial and Spinal Nerves, showing the formation of the different Plexuses and their branches, but also the complete distribution of the SYMPATHETIC NERVES.

PART II. The Arteries.—Gives a unique grouping of the Arterial system, showing the divisions and subdivisions of all the vessels, beginning from the heart and tracing their CONTINUOUS distribution to the periphery, and showing at a glance the terminal branches of each artery.

PART III. The Veins.—Shows how the blood from the periphery of the body is gradually collected by the larger veins, and these coalescing forming still larger vessels, until they finally trace themselves into the Right Auricle of the heart.

It is therefore readily seen that "The Nervo-Vascular System of Charts" offers the following superior advantages :—

1. It is the only arrangement which combines the Three Systems, and yet each is perfect and distinct in itself.

2. It is the only instance of the Cranial, Spinal, and Sympathetic Nervous Systems being represented on one chart.

3. From its neat size and clear type, and being printed only upon one side, it may be tacked up in any convenient place, and is always ready for freshening up the memory and reviewing for examination.

Price, post-paid, in United States and Canada, 50 cents, net, complete; in Great Britain, 3s. 6d.; in France, 3 fr. 60.

For the student of anatomy there can possibly be no more concise way of acquiring a knowledge of the nerves, veins, and arteries of the human system. It presents at a glance their trunks and branches in the great divisions of the body. It will save a world of tedious reading, and will impress itself on the mind as no ordinary *vade mecum*, even, could. Its price is nominal and its value inestimable. No student should be without it.—*Pacific Record of Medicine and Surgery.*

These are three admirably arranged charts for the use of students, to assist in memorizing their anatomical sudies.—*Buffalo Med. and Surg. Jour.*

PURDY

Diabetes: Its Cause, Symptoms and Treatment

By CHAS. W. PURDY, M.D. (Queen's University), Honorary Fellow of the Royal College of Physicians and Surgeons of Kingston; Member of the College of Physicians and Surgeons of Ontario; Author of "Bright's Disease and Allied Affections of the Kidneys;" Member of the Association of American Physicians; Member of the American Medical Association; Member of the Chicago Academy of Sciences, etc.

CONTENTS.—Section I. Historical, Geographical, and Climatological Considerations of Diabetes Mellitus. II. Physiological and Pathological Considerations of Diabetes Mellitus. III. Etiology of Diabetes Mellitus. IV. Morbid Anatomy of Diabetes Mellitus. V. Symptomatology of Diabetes Mellitus. VI. Treatment of Diabetes Mellitus. VII. Clinical Illustrations of Diabetes Mellitus. VIII. Diabetes Insipidus; Bibliography.

12mo. Dark Blue Extra Cloth. Nearly 200 pages. With Clinical Illustrations. *No. 8 in the Physicians' and Students' Ready-Reference Series.*

Price, post-paid, in the United States and Canada, $1.25, net; in Great Britain, 6s. 6d.; in France, 7 fr. 75.

This will prove a most entertaining as well as most interesting treatise upon a disease which frequently falls to the lot of every practitioner. The work has been written with a special view of bringing out the features of the disease as it occurs in the United States. The author has very judiciously arranged the little volume, and it will offer many pleasant attractions to the practitioner.—*Nashville Journal of Medicine and Surgery.*

While many monographs have been published which have dealt with the subject of diabetes, we know of none which so thoroughly considers its relations to the geographical conditions which exist in the United States, nor which is more complete in its summary of the symptomatology and treatment of this affection. A number of tables, showing the percentage of sugar in a very large number of alcoholic beverages, adds very considerably to the value of the work.—*Medical News.*

Medical Publications of F. A. Davis, Philadelphia.

SHOEMAKER

Materia Medica and Therapeutics.

WITH ESPECIAL REFERENCE TO THE CLINICAL APPLICATION OF DRUGS. BEING THE SECOND AND LAST VOLUME OF A TREATISE ON MATERIA MEDICA, PHARMACOLOGY, AND THERAPEUTICS, AND AN INDEPENDENT VOLUME UPON DRUGS.

By JOHN V. SHOEMAKER, A.M., M.D., Professor of Materia Medica, Pharmacology, Therapeutics, and Clinical Medicine, and Clinical Professor of Diseases of the Skin in the Medico-Chirurgical College of Philadelphia; Physician to the Medico-Chirurgical Hospital, etc., etc.

This, the second volume of Shoemaker's "Materia Medica, Pharmacology, and Therapeutics," is wholly taken up with the consideration of drugs, each remedy being studied from three points of view, viz.: the Preparations, or Materia Medica; the Physiology and Toxicology, or Pharmacology; and, lastly, its Therapy. It is thoroughly abreast of the progress of Therapeutic Science, and is really an indispensable book to every student and practitioner of medicine.

Royal Octavo, about 675 pages. Thoroughly and carefully indexed.

Price, in United States, post-paid, Cloth, $3.50; Sheep, $4.50, net. Canada (duty paid), Cloth, $4.00; Sheep, $5.00, net. Great Britain, Cloth, 20s.; Sheep, 26s. France, Cloth, 22 fr. 40; Sheep, 28 fr. 60.

The first volume of this work is devoted to Pharmacy, General Pharmacology, and Therapeutics, and remedial agents not properly classed with drugs. Royal Octavo, 353 pages.

Price of Volume I, post-paid, in United States, Cloth, $2.50, net; Sheep, $3.25, net. Canada, duty paid, Cloth, $2.75, net; Sheep, $3.60, net. Great Britain, Cloth, 14s.; Sheep, 18s. France, Cloth, 16 fr. 20; Sheep, 20 fr. 20. The volumes are sold separately.

SHOEMAKER'S TREATISE ON MATERIA MEDICA, PHARMACOLOGY, AND THERAPEUTICS STANDS ALONE.

(1) Among Materia Medica text-books, in that it includes every officinal drug and every preparation contained in the United States Pharmacopœia.

(2) In that it is the only work on therapeutics giving the strength, composition, and dosage of every officinal preparation.

(3) In giving the latest investigations with regard to the physiological action of drugs and the most recent applications in therapeutics.

(4) In combining with officinal drugs the most reliable reports of the actions and uses of all the noteworthy new remedies, such as acetanilid, antipyrin, bromoform, exalgin, pyoktanin, pyridin, somnal, spermine (Brown-Séquard), tuberculin (Koch's lymph), sulphonal, thiol, urethan, etc., etc.

(5) As a complete encyclopædia of modern therapeutics in condensed form, arranged alphabetically for convenience of reference for either physician, dentist, or pharmacist, when immediate information is wanted concerning the action, composition, dose, or antidotes for any officinal preparation or new remedy.

(6) In giving the physical characters and chemical formulæ of the new remedies, especially the recently-introduced antipyretics and analgesics.

(7) In the fact that it gives special attention to the consideration of the diagnosis and treatment of poisoning by the more active drugs, both officinal and non-officinal.

(8) And unrivaled in the number and variety of the prescriptions and practical formulæ, representing the latest achievements of clinical medicine.

(9) In that, while summarizing foreign therapeutical literature, it fully recognizes the work done in this department by American physicians. It is an epitome of the present state of American medical practice, which is universally acknowledged to be the best practice.

(10) Because it is the most complete, convenient, and compendious work of reference, being, in fact, a companion to the United States Pharmacopœia, a drug-encyclopædia, and a therapeutic hand-book all in one volume.

The value of the book lies in the fact that it contains all that is authentic and trustworthy about the host of new remedies which have deluged us in the last five years. The pages are remarkably free from useless information. The author has done well in following the alphabetical order.—*N. Y. Med. Record.*

In perusing the pages devoted to the special consideration of drugs, their pharmacology, physiological action, toxic action, and therapy, one is constantly surprised at the amount of material compressed in so limited a space. The book will prove a valuable addition to the physician's library.—*Occidental Med. Times.*

It is a meritorious work, with many unique features. It is richly illustrated by well-tried prescriptions showing the practical application of the various drugs discussed. In short, this work makes a pretty complete encyclopædia of the science of therapeutics, conveniently arranged for handy reference.—*Med. World.*

Medical Publications of F. A. Davis, Philadelphia.

WITHERSTINE

The International Pocket Medical Formulary

ARRANGED THERAPEUTICALLY.

By C. SUMNER WITHERSTINE, M.S., M.D., Associate Editor of the "Annual of the Universal Medical Sciences;" Visiting Physician of the Home for the Aged, Germantown, Philadelphia; Late House-Surgeon Charity Hospital, New York.

More than 1800 formulæ from several hundred well-known authorities. With an Appendix containing a Posological Table, the newer remedies included; Important Incompatibles; Tables on Dentition and the Pulse; Table of Drops in a Fluidrachm and Doses of Laudanum graduated for age; Formulæ and Doses of Hypodermatic Medication, including the newer remedies; Uses of the Hypodermatic Syringe; Formulæ and Doses for Inhalations, Nasal Douches, Gargles, and Eye-washes; Formulæ for Suppositories; Use of the Thermometer in Disease; Poisons, Antidotes, and Treatment; Directions for Post-Mortem and Medico-Legal Examinations; Treatment of Asphyxia, Sun-stroke, etc.; Antiemetic Remedies and Disinfectants; Obstetrical Table; Directions for Ligations of Arteries; Urinary Analysis; Table of Eruptive Fevers; Motor Points for Electrical Treatment, etc.

This work, the best and most complete of its kind, contains about 275 printed pages, besides extra blank leaves—the book being interleaved throughout—elegantly printed, with red lines, edges, and borders; with illustrations. Bound in leather, with side flap.

It is a handy book of reference, replete with the choicest formulæ (over 1800 in number) of more than six hundred of the most prominent classical writers and modern practitioners.

The remedies given are not only those whose efficiency has stood the test of time, but also the newest and latest discoveries in pharmacy and medical science, as prescribed and used by the best-known American and foreign modern authorities.

It contains the latest, largest (66 formulæ), and most complete collection of hypodermatic formulæ (including the latest new remedies) ever published, with doses and directions for their use in over fifty different diseases and diseased conditions.

Its appendix is brimful of information, invaluable in office work, emergency cases, and the daily routine of practice.

It is a reliable friend to consult when, in a perplexing or obstinate case, the usual line of treatment is of no avail. (A hint or a help from the best authorities, as to choice of remedies, correct dosage, and the eligible, elegant, and most palatable mode of exhibition of the same.)

It is compact, elegantly printed and bound, well illustrated, and of convenient size and shape for the pocket.

The alphabetical arrangement of the diseases, and a thumb-letter index render reference rapid and easy.

Blank leaves, judiciously distributed throughout the book, afford a place to record and index favorite formulæ.

As a *student*, the physician needs it for study, collateral reading, and for recording the favorite prescriptions of his professors, in lecture and clinic; as a *recent graduate*, he needs it as a reference hand-book for daily use in prescribing (gargles, nasal douches, inhalations, eye-washes, suppositories, incompatibles, poisons, etc.); as an *old practitioner*, he needs it to refresh his memory on old remedies and combinations, and for information concerning newer remedies and more modern approved plans of treatment.

No live, progressive medical man can afford to be without it.

Price, post-paid, in United States and Canada $2.00, net; Great Britain, 11s. 6d.; France, 12 fr. 40.

It is sometimes important that such prescriptions as have been well established in their usefulness be preserved for reference, and this little volume serves such a purpose better than any other we have seen.—*Columbus Medical Journal.*

To the young physiciun just starting out in practice this little book will prove an acceptable companion.—*Omaha Clinic.*

As long as "combinations" are sought, such a book will be of value, especially to those who cannot spare the time required to learn enough of incompatibilities before commencing practice to avoid writing incompatible and dangerous prescriptions. The constant use of such a book by such prescribers would save the pharmacist much anxiety.—*The Druggists' Circular.*

In judicious selection, in accurate nomenclature, in arrangement, and in style, it leaves nothing to be desired. The editor and the publisher are to be congratulated on the production of the very best book of its class.—*Pittsburgh Medical Review.*

Medical Publications of F. A. Davis, Philadelphia.

EISENBERG

Bacteriological Diagnosis.

TABULAR AIDS FOR USE IN PRACTICAL WORK.

By JAMES EISENBERG, Ph.D., M.D., Vienna. Translated and augmented, with the permission of the author, from the latest German Edition, by NORVAL H. PIERCE, M.D., Surgeon to the Out-Door Department of Michael Reese Hospital; Assistant to Surgical Clinic, College of Physicians and Surgeons, Chicago, Ill.

This book is a novelty in Bacteriological Science. It is arranged in a tabular form in which are given the specific characteristics of the various well-established bacteria, so that the worker may, at a glance, inform himself as to the identity of a given organism. They then serve the same function to the Bacteriologist as does the "Chemical Analysis Chart" to the chemist, and the one will be found as essential as the other.

THE GREATEST care has been taken to bring the work up to the present aspect of Bacteriology.

In one Octavo volume, handsomely bound in Cloth. READY SOON.

Price, post-paid, in the United States and Canada, $1.50, net; in Great Britain, 8s. 6d.; in France, 9 fr. 35.

EDINGER

Twelve Lectures on the Structure of the Central Nervous System.

FOR PHYSICIANS AND STUDENTS.

By DR. LUDWIG EDINGER, Frankfort-on-the-Main. Second Revised Edition. With 133 Illustrations. Translated by WILLIS HALL VITTUM, M.D., St. Paul, Minn. Edited by C. EUGENE RIGGS, A.M., M.D., Professor of Mental and Nervous Diseases, University of Minnesota; Member of the American Neurological Association.

The illustrations are exactly the same as those used in the latest German edition (with the German names translated into English), and are very satisfactory to the Physician and Student using the book.

The work is complete in one Royal Octavo volume of about 250 pages, bound in Extra Cloth.

Price in United States and Canada, post-paid, $1.75, net; Great Britain, 10s.; France, 12 fr. 20.

One of the most instructive and valuable works on the minute anatomy of the human brain extant. It is written in the form of lectures, profusely illustrated, and in clear language. The book is worthy of the highest enconiums, and will, undoubtedly, command a large sale.—*The Pacific Record of Medicine and Surgery.*

Since the first works on anatomy, up to the present day, no work has appeared on the subject of the general and minute anatomy of the central nervous system so complete and exhaustive as this work of Dr. Ludwig Edinger. Being himself an original worker, and having the benefits of such masters as Stilling, Weigeit, Geilach, Meynert, and others, he has succeeded in transforming the mazy wilderness of nerve fibres and cells into a district of well-marked pathways and centres, and by so doing has made a pleasure out of an anatomical bugbear.—*The Southern Medical Record.*

Every point is clearly dwelt upon in the text, and where description alone might leave a subject obscure clever drawings and diagrams are introduced to render misconception of the author's meaning impossible. The book is eminently practical. It unravels the intricate entanglement of different tracts and paths in a way that no other book has done so explicitly or so concisely. — *Northwestern Lancet.*

Medical Publications of F. A. Davis, Philadelphia.

MICHENER

Hand-Book of Eclampsia; OR, NOTES AND CASES OF PUERPERAL CONVULSIONS.

By E. MICHENER, M.D.; J. H. STUBBS, M.D.; R. B. EWING, M.D.; B. THOMPSON, M.D.; S. STEBBINS, M.D. 16mo. Cloth.

Price, 60 cents, net; in Great Britain, 4s. 6d.; France, 4 fr. 20.

NISSEN

A MANUAL OF INSTRUCTION FOR GIVING

Swedish Movement and Massage Treatment

By PROF. HARTVIG NISSEN, late Director of the Swedish Health Institute, Washington, D. C.; late Instructor in Physical Culture and Gymnastics at the Johns Hopkins University, Baltimore, Md.; Instructor of Swedish and German Gymnastics at Harvard University's Summer School, 1891.

This excellent little volume treats this very important subject in a practical manner. Full instructions are given regarding the mode of applying the Swedish Movement and Massage Treatment in various diseases and conditions of the human system with the greatest degree of effectiveness. Professor Nissen is the best authority in the United States upon the practical phase of this subject, and his book is indispensable to every physician who wishes to *know how* to use these valuable handmaids of medicine.

Illustrated with 29 Original Wood-Engravings. In one 12mo volume of 128 Pages. Neatly bound in Cloth.

Price, post-paid, in the United States and Canada, $1.00, net; Great Britain, 6s.; France, 6 fr. 20.

This manual is valuable to the practitioner, as it contains a terse description of a subject but too little understood in this country. . . . The book is got up very creditably.—*N. Y. Med. Jour.*

The present volume is a modest account of the application of the Swedish Movement and Massage Treatment, in which the technique of the various procedures are clearly stated as well as illustrated in a very excellent manner.—*North American Practitioner.*

This attractive little book presents the subject in a very practical shape, and makes it possible for every physician to understand at least how it is applied, if it does not give him dexterity in the art of its application.—*Chicago Med. Times.*

Physicians' Interpreter.

IN FOUR LANGUAGES (ENGLISH, FRENCH, GERMAN, AND ITALIAN). SPECIALLY ARRANGED FOR DIAGNOSIS BY M. VON V.

The object of this little work is to meet a need often keenly felt by the busy physician, namely, the need of some quick and reliable method of communicating intelligibly with patients of those nationalities and languages unfamiliar to the practitioner. The plan of the book is a systematic arrangement of questions upon the various branches of Practical Medicine, and each question is so worded that the only answer required of the patient is merely Yes or No. The questions are all numbered, and a complete Index renders them always available for quick reference. The book is written by one who is well versed in English, French, German, and Italian, being an excellent teacher in all those languages, and who has also had considerable hospital experience. Bound in Full Russia Leather, for carrying in the pocket. Size, 5x2¾ inches. 206 pages.

Price, post-paid, in United States and Canada, $1.00, net; Great Britain, 6s.; France, 6 fr. 20.

Many other books of the same sort, with more extensive vocabularies, have been published, but, from their size, and from their being usually devoted to equivalants in English and one other language only, they have not had the advantage which is pre-eminent in this—convenience. It is handsomely printed, and bound in flexible red leather in the form of a diary. It would scarcely make itself felt in one's hip-pocket, and would insure its bearer against any ordinary conversational difficulty in dealing with foreign-speaking people, who are constantly coming into our city hospitals.—*New York Medical Journal.*

This little volume is one of the most ingenious aids to the physician which we have seen. We heartily commend the book to any one who, being without a knowledge of the foreign languages, is obliged to treat those who do not know our own language.—*St. Louis Courier of Medicine.*

Medical Publications of F. A. Davis, Philadelphia.

STEWART

Obstetric Synopsis.

By JOHN S. STEWART, M.D., formerly Demonstrator of Obstetrics and Chief Assistant in the Gynæcological Clinic of the Medico-Chirurgical College of Philadelphia: with an introductory note by WILLIAM S. STEWART, A.M., M.D., Professor of Obstetrics and Gynæcology in the Medico-Chirurgical College of Philadelphia.

By students this work will be found particularly useful. It is based upon the teachings of such well-known authors as Playfair, Parvin, Lusk, Galabin, and Cazeaux and Tarnier, and contains much new and important matter of great value to both student and practitioner.

With 42 Illustrations. 202 pages. 12mo. Handsomely bound in Dark-Blue Cloth. *No. 1 in the Physicians' and Students' Ready-Reference Series.*

Price, post-paid, in the United States and Canada, $1.00, net; in Great Britain, 6s.; France, 6 fr. 20.

DELASKIE MILLER, M.D., Professor of Obstetrics, Rush Medical College, Chicago, Ill., says:—"I have examined the 'Obstetric Synopsis,' by John S. Stewart, M.D., and it gives me pleasure to characterize the work as systematic, concise, perspicuous, and authentic. Among manuals it is one of the best."

It is well written, excellently illustrated, and fully up to date in every respect. Here we find all the essentials of Obstetrics in a nutshell, Anatomy, Embryology, Physiology, Pregnancy, Labor, Puerperal State, and Obstetric Operations all being carefully and accurately described.—*Buffalo Medical and Surgical Journal.*

It is clear and concise. The chapter on the development of the ovum is especially satisfactory. The judicious use of bold-faced type for headings and italics for important statements gives the book a pleasing typographical appearance.—*Medical Record.*

This volume is done with a masterly hand. The scheme is an excellent one. The whole is freely and most admirably illustrated with well-drawn, new engravings, and the book is of a very convenient size.—*St. Louis Medical and Surgical Journal.*

ULTZMANN

The Neuroses of the Genito-Urinary System in the Male.

WITH STERILITY AND IMPOTENCE.

By DR. R. ULTZMANN, Professor of Genito-Urinary Diseases in the University of Vienna. Translated, with the author's permission, by GARDNER W. ALLEN, M.D., Surgeon in the Genito-Urinary Department, Boston Dispensary.

Full and complete, yet terse and concise, it handles the subject with such a vigor of touch, such a clearness of detail and description, and such a directness to the result, that no medical man who once takes it up will be content to lay it down until its perusal is complete,—nor will one reading be enough.

Professor Ultzmann has approached the subject from a somewhat different point of view from most surgeons, and this gives a peculiar value to the work. It is believed, moreover, that there is no convenient hand-book in English treating in a broad manner the Genito-Urinary Neuroses.

SYNOPSIS OF CONTENTS.—First Part—I. Chemical Changes in the Urine in Cases of Neuroses. II. Neuroses of the Urinary and of the Sexual Organs, classified as: (1) Sensory Neuroses; (2) Motor Neuroses; (3) Secretory Neuroses. Second Part—Sterility and Impotence. The treatment in all cases is described clearly and minutely.

Illustrated. 12mo. Handsomely bound in Dark-Blue Cloth. *No. 4 in the Physicians' and Students' Ready-Reference Series.*

Price, post-paid, in the United States and Canada, $1.00, net; in Great Britain, 6s.; in France, 6 fr. 20.

This book is to be highly recommended, owing to its clearness and brevity. Altogether, we do not know of any book of the same size which contains so much useful information in such a short space.—*Medical News.*

Its scope is large, not being confined to the one condition,—neurasthenia,—but embracing all of the neuroses, motor and sensory, of the genito-urinary organs in the male. No one who has read after Dr. Ultzmann need be reminded of his delightful manner of presenting his thoughts, which ever sparkle with originality and appositeness.—*Weekly Med. Review.*

It engenders sound pathological teaching, and will aid in no small degree in throwing light on the management of many of the difficult and more refractory cases of the classes to which these essays especially refer.—*The Medical Age.*

SYR. HYPOPHOS. CO., FELLOWS

Contains the Essential Elements of the Animal Organization—Potash and Lime;

The Oxidising Agents—Iron and Manganese;

The Tonics—Quinine and Strychnine;

And the Vitalizing Constituent—Phosphorus; the whole combined in the form of a Syrup with a **Slightly Alkaline Reaction.**

It Differs in its Effects from all Analogous Preparations; and it possesses the important properties of being pleasant to the taste, easily borne by the stomach, and harmless under prolonged use.

It has Gained a Wide Reputation, particularly in the treatment of Pulmonary Tuberculosis, Chronic Bronchitis, and other affections of the respiratory organs. It has also been employed with much success in various nervous and debilitating diseases.

Its Curative Power is largely attributable to its stimulant, tonic, and nutritive properties, by means of which the energy of the system is recruited.

Its Action is Prompt; it stimulates the appetite and the digestion, it promotes assimilation, and it enters directly into the circulation with the food products.

The prescribed dose produces a feeling of buoyancy, and removes depression and melancholy; *hence the preparation is of great value in the treatment of mental and nervous affections.* From the fact, also, that it exerts a double tonic influence, and induces a healthy flow of the secretions, its use is indicated in a wide range of diseases.

NOTICE—CAUTION.

The success of Fellows' Syrup of Hypophosphites has tempted certain persons to offer imitations of it for sale. Mr. Fellows, who has examined samples of several of these, ***finds that no two of them are identical,*** and that all of them differ from the original in composition, in freedom from acid reaction, in susceptibility to the effects of oxygen when exposed to light or heat, ***in the property of retaining the strychnine in solution,*** and in the medicinal effects.

As these cheap and inefficient substitutes are frequently dispensed instead of the genuine preparation, physicians are earnestly requested, when prescribing the Syrup, to write "Syr. Hypophos. ***Fellows.***"

As a further precaution, it is advisable that the Syrup should be ordered in the original bottles; the distinguishing marks which the bottles (and the wrappers surrounding them) bear, can then be examined, and the genuineness—or otherwise—of the contents thereby proved.

Medical Letters may be addressed to

Mr. FELLOWS, 48 Vesey Street, New York.

REVOLUTION IN IRON ADMINISTRATION

A HIGHLY PALATABLE PREPARATION OF IRON CHLORIDE.

IRON is easily chief among Hæmatinics. According to T. Lauder Brunton, M.D., D.Sc., F.R.S., it increases the number of blood corpuscles; the percentage of hæmaglobin in them, and functional activity of all the vital organs; as a vascular tonic classes with digitalis and strychnine, and in its alterative qualities with arsenic.

The Tincture of Chloride of Iron has long been recognized as the most efficient of iron preparations, the objections to its continued administration, its highly astringent taste, its corrosive action on the teeth, and constipating action have, however, been hitherto insurmountable.

We have succeeded in preparing an entirely palatable syrup of officinal Tincture Iron Chloride combining all its virtues with none of its drawbacks. It is prepared after the formula of Dr. G. W. Weld, and is entitled:

"WELD'S SYRUP OF IRON CHLORIDE."

(P., D. & CO.'S)

We earnestly recommend its trial to all the profession, believing it to be the most acceptable preparation of Iron ever devised.

Samples will be sent on receipt of request to physicians who indicate their willingness to pay express charges.

PARKE, DAVIS & CO.,

DETROIT, NEW YORK AND KANSAS CITY.

DYSPEPSIA.

Deranged digestion is the most common of all human ailments. It is a truism that no organ of the body can preserve its normal integrity *when* its supplying nerve is disordered *by lowered tone,* but this fact is largely ignored in these modern pepsin days—the *cause* being lost sight of whilst trying to remedy the effect. It is well known that any unusual worry or anxiety will upset the digestion of *the neurotic* patient. Hence, in treating dyspepsia, particularly atonic dyspepsia, that form met with in persons of low vitality and poor appetite, there are *two distinct INDICATIONS:* one is to subserve the needs of general nutrition, the other is to subserve the needs of the nervous system. This can be done by giving the patient good nutritious food and a good nerve tonic. This explains why such remarkable results follow the daily use of *CELERINA* in all dyspeptic troubles.

The only prominent Emulsion of Cod-Liver Oil introduced directly to the medical profession. It is advertised exclusively in medical journals.

HYDROLEINE.

(HYDRATED OIL.)

Produces rapid increase in Flesh and Strength.

FORMULA.—Each Dose contains:			
Pure Cod Liver Oil.....	80 m. (drops)	Soda.....	1-3 Grains
Distilled Water.....	25 "	Salicylic Acid.....	1-4 "
Soluble Pancreatin.....	5 Grains.	Hyocholic Acid.....	1-20 "

Recommended and Prescribed by EMINENT PHYSICIANS Everywhere. It is pleasant to the Taste and acceptable to the most delicate Stomach.

IT IS ECONOMICAL IN USE AND CERTAIN IN RESULTS.

HYDROLEINE (Hydrated Oil) is not a simple alkaline emulsion of oleum morrhuæ, but a hydro-pancreated preparation, containing acids and a small percentage of soda. Pancreatin is the digestive principle of fatty foods, and in the soluble form here used, readily converts the oleaginous material into assimilable matter, a change so necessary to the reparative process in all wasting diseases.

The following are some of the diseases in which **HYDROLEINE** is indicated:

Phthisis, Tuberculosis, Catarrh, Cough, Scrofula, Chlorosis,

General Debility, etc.

TO BRAIN WORKERS of all classes, **HYDROLEINE** is invaluable, supplying as it does, the true brain-food, and being more easily assimilated by the digestive organs than any other emulsion.

The principles upon which this discovery is based have been described in a treatise on "The Digestion and Assimilation of Fats in the Human Body," and "Consumption and Wasting Diseases," by two distinguished London physicians, which will be sent free on application.

SOLD BY DRUGGISTS GENERALLY.

C. N. CRITTENTON,

SOLE AGENT FOR THE UNITED STATES. 115 FULTON STREET, N. Y.

A Sample of Hydroleine will be sent free upon application, to any physician (enclosing business card) in the U. S.

The Sober Judgment

Of all who consider the question, must be given in favor of the Digestive Ferments which pass through all the processes of manufacture in one laboratory, beginning with the living animal. Absolutely fresh raw materials and immediate manipulation insure preparations of exceptional activity, without even a suggestion of decomposition.

Armour & Company
Chicago

WARNER & CO.'S LITHIA SALTS IN TREATMENT OF RHEUMATISM.

BROMO LITHIA.

(Warner & Co. Founded 1856.)

Each Dessertspoonful contains: R Salicylate Lithia 10 grs. and Brom. Soda 10 grs.

Bromo Lithia is an extremely potent remedy in the treatment of Rheumatism, Rheumatic Gout and Gouty Diathesis, originated by Wm. R. Warner & Co. It consists of Salicylate Lithium 10 grs., and Bromide Sodium 10 grs., in each dessertspoonful.

GRANULAR EFFERVESCENT

Bromide of Lithia

Each teaspoonful contains five grains of the chemically pure salt.

This preparation has been strongly recommended as a remedy for Epilepsy and as a Hypnotic of great value.

GRANULAR EFFERVESCENT

Salicylate of Lithia

Dose:—A teaspoonful containing ten grains of Salt.

A convenient and pleasant remedy in Gout and Rheumatism.

This preparation is intended for physicians' use and will be found to possess advantages over Salicylic Acid. being less irritating to the stomach, and combining the efficacy of Lithia and Salicylic Acid.

GRANULAR EFFERVESCENT

Salicylate of Sodium

ANTI-RHEUMATIC.

Each heaping teaspoonful contains ten grains of Salicylate of Sodium.

Salicylate of Sodium is now generally preferred to other forms of Salicylic Acid, owing to its greater solubility, etc.

GRANULAR EFFERVESCENT

Citrate Lithia

Each heaping teaspoonful contains four grains of the chemically pure salt. Valuable in Rheumatic, Gouty, and analogous disorders, and acceptable to delicate stomachs where the Carbonate is not well borne.

GRANULAR EFFERVESCENT

Lithiated Potash

Each heaping teaspoonful contains five grains of Carb. Lithia and ten grains of Bi-Carb. Potash.

GRANULAR EFFERVESCENT

Carbonate Lithia

Each heaping teaspoonful contains four grains of the chemically pure salt. A remarkable and often magical resolvent of Gouty Rheumatic deposits.

Dr. A. Garrod, a well-known English authority on Gout, who was the first physician to introduce the Lithia Salts in the treatment of the gouty diathesis, states that their action is materially increased by being administered in a freely diluted form. The effervescing salts of Lithia furnish an easy and elegant way of applying Dr. Garrod's methods.

A REMEDY IN HEADACHE, INSOMNIA, ETC.

Prepared by WM. R. WARNER & CO., Chemists,

PHILADELPHIA. NEW YORK. LONDON, ENGLAND.

INGLUVIN

Superior to Pepsin of the Hog. A Powder Prescribed in Same Dose, Manner, and Combination.

CH. MARCHAND'S

PEROXIDE OF HYDROGEN

(MEDICINAL) H_2O_2 (ABSOLUTELY HARMLESS.)

Most powerful bactericide and pus destroyer.
Endorsed by the medical profession.
Uniform in strength, purity, stability.
Retains germicidal power any length of time.
Taken internally or applied externally with perfect safety.

Send for free book of 72 pages, giving articles by the following contributors:

DR. E. R. SQUIBB, of Brooklyn, N. Y. "On the Medicinal Uses of Hydrogen Peroxide." "Diphtheria." *Gaillard's Medical Journal*, N. Y.

IMPERIAL GRANUM.

IMPERIAL GRANUM is one of those carefully and conscientiously prepared foods that never disappoint the doctor in its administration. We have never seen a stomach that could not retain it, no matter how inflamed it might be. It will at once be seen what a valuable aid this is to the physician in the treatment of all graver forms of gastric diseases.—*The Prescription, Feb. '91.*

FOR several years we have used and prescribed IMPERIAL GRANUM, both in private and hospital practice, and have not as yet recorded a single case of failure to obtain the most satisfactory results. Especially is it serviceable in our hospital wards, and its uniformity may always be relied upon.—*Ensworth Hospital, St. Joseph. Mo. May 15, 1891.*

IMPERIAL GRANUM is a good and well made powder of pleasant flavor * * Contains no trace of any impurity.—*The Lancet, London, Eng., July 12th, 1890.*

IMPERIAL GRANUM is acceptable to the palate and also to the most delicate stomach AT ALL PERIODS OF LIFE.—*Annual of the Universal Medical Sciences, '90.*

IMPERIAL GRANUM is an invalid food of unrivalled purity, very palatable, and of especial value in typhoid fevers, inanition, and enteric troubles generally. Its sale is world wide.—*The Homœopathic Recorder, Philadelphia, Pa., May, 1890.*

IMPERIAL GRANUM.—The greatest possible care is used in its manufacture, as we can testify, having visited the factory. Absolute cleanliness prevails, and the greatest care is taken to have the product absolutely uniform.—*The Christian Union, New York, July 4, '90.*

IMPERIAL GRANUM is a food that has attained a high and standard reputation by the merit of actual use for a long period of time.—*Medical Summary, Philadelphia, Pa., July, '88.*

IMPERIAL GRANUM is very highly recommended and endorsed by the best medical authority in the country, and deserves a trial at the hands of the profession.—*North American Practioner, Chicago, Ill., July, '91.*

IMPERIAL GRANUM has stood the test of many years, and has not been displaced by any food yet introduced, while many competing kinds of prepared foods have come and gone, and have been missed by few or none. But this will have satisfactory results in nutrition far into the future, because it is based on merit and proven success in the past.—*The Pharmaceutical Record, New York, March 19, 1891.*

IMPERIAL GRANUM—"Of the preparations so varied and so highly commended by those who put them on the market, IMPERIAL GRANUM seems to hold the first place in the estimation of medical observers.—*New York Medical Record, Vol. 13, No. 23.*

IMPERIAL GRANUM is a prepared food that has acquired a very high reputation for its nutritive and medicinal excellence, and we have found it adapted to very young children as well as adults—in fact, we have used it successfully with children from birth.—*The Post Graduate Journal, New York, April, '90.*

SOLD BY DRUGGISTS. **Shipping Depot, JOHN CARLE & SONS, New York.**

THOMPSON'S

MALTED BEEF.

A Pure Liquid Food and Nutritive Tonic.

Made by the Combination of a SUPERIOR Malt Extract with a PURE Extract of Beef.

Unsurpassed in Cases of Debility, Wasting Diseases, Dyspepsia, Convalescence, etc.

THOMPSON'S

MALTED HOP TONIC.

A SUPERIOR EXTRACT OF MALT AND HOPS.

Containing a LARGER Percentage of Extractive Matter and a SMALLER Percentage of Alcohol than any Extract in the Market.

Made from the Choicest Barley-Malt and Hops. Warranted Absolutely Pure. It will be found invaluable as a Tonic, without Depressing After-Effects.

FOR NURSING MOTHERS

IT IS SUPERIOR TO ANY GOODS on sale, and it will be found an EXCELLENT REMEDY in Cases of SLEEPLESSNESS, LOSS OF APPETITE, etc.

FOR SALE BY DRUGGISTS,

OR AT MAIN DEPOT,

146 and 148 South Water Street,

PHILADELPHIA.

Just One Word

to the Medical Profession as to the value of TERRALINE (or purified Petroleum) in Bronchial Pulmonary Catarrha, and other Diseases of the Throat and Lungs.

In the first place it is not an emulsion and does not deteriorate with age. In the second place it is tasteless and odorless; the patient can continue its use without repugnance to the taste. It does not cause eructations or nausea and the most delicate stomach can tolerate it. It is prescribed by the leading physicians everywhere, and the grand results from its use as reported to us are almost incredible. Read what a few of our leading city physicians say of it, as given in interviews:

DR. JAMES T. YOUNG, 1336 New York Avenue:—"Terraline has promptly relieved a number of cases of Chronic Bronchial Catarrh that would not yield to other remedies."

DR. J. O. STANTON, 1344 G Street:—"I have prescribed Terraline in a large number of cases of Laryngitis, Bronchitis, and Incipient Phthisis, and am more than pleased with the result."

DR. Z. T. SOWERS, 1320 New York Avenue:—"I have prescribed Terraline in a number of cases such as are usually given Cod-Liver Oil, and as it has the double advantage of *no odor or taste*, can be given in those cases in which Cod-Liver Oil disagrees, with all the advantages of the latter, and with even increased benefit."

DR. A. Y. P. GARNETT, 1317 New York Avenue:—"Have prescribed Terraline as many as thirty times, and for almost as many forms of Bronchial and Pulmonary complaints, and fail to recall a single instance in which I did not see prompt and decided improvement in the patient."

DR. D. C. PATTERSON, 919 I Street:—"I am of the opinion that in Terraline we have a most valuable agent in the treatment of the class of cases for which Cod-Liver Oil is prescribed."

DR. P. J. MURPHY, Surgeon in charge of the Columbia Hospital:—"I have prescribed Terraline very often in the last year, both in and out of the Hospital, with grand results, and while I never write a certificate for a medicine, however good, am free to say that I see in Terraline the greatest remedy for the treatment of Bronchial and Pulmonary troubles ever brought to my attention."

We have hundreds of certificates from all parts of the United States which we will insert from time to time in the Medical Journals, where they legitimately belong.

℞ Terraline, . . . ℥ xii.

Sig.: One or two teaspoonfuls, three or four times daily, in sherry wine.

The price of **Terraline** is One Dollar a bottle. A full size bottle for trial will be sent to any physician without expense except for express charges, which he must pay on receipt of it.

OXYGEN IN LIFE PROCESSES.

At this season of the year the practitioner is called upon to treat patients who have spent a large portion of their time in the house during the winter. They have been breathing the confined house-air which, besides being rendered deficient in oxygen by the necessary combustion going on in stoves, lamps, and gas-jets, is, in addition, more or less vitiated by the poisonous emanations of organic life.

During most of this time there has been imperfect physiological action because there has been incomplete oxidation. The inter-cellular spaces of the tissues have become clogged up with products of incomplete combustion—imperfect waste and repair.

In consequence of these facts we notice a preponderance of those diseases usually attributed to that indefinite cause—impure blood.

Hence we observe the tendency to scrofulous manifestations—eruptions, glandular swellings, abscesses, and ulcerations; also the tendency to a breaking down of the nervous system, with its varied phenomena; the tendency, again, to a lack of prompt response to treatment in acute diseases and slow convalescence from them; and finally, the tendency on the part of inflammatory conditions of the air passages at this time, unless specially guarded, to become chronic or to develop active degenerative and destructive processes.

To correct this condition we need a remedy that promotes oxidation within the tissues themselves.

Such a remedy is found in the hypophosphites of lime and soda. However, not only does it thus promote active oxidation, but it also is itself deposited, in its changed or oxidized condition, within the tissues as direct reconstructive material, indispensable to healthy cells and sound tissue-walls.

Thus it proves to be the true alterative agent, inasmuch as it at the same time renovates and nourishes.

Under this remedy we observe an awakened organic action throughout the system and an improvement in every tissue. We soon observe better muscles, bones, nerves, hair, nails, skin, and mucous and serous membranes. The entire system awakens to a more vigorous life and performs its various functions with renewed activity.

In these facts may be seen indications for the use of this remedy, especially at this season of the year, in cases which show consumptive, scrofulous, or nervous tendencies.

It is quite important, however, to obtain these delicate and unstable salts in an absolutely pure condition and put up in a form to secure the permanence of their composition. This can be accomplished by prescribing McArthur's Syrup, in which the chemically pure hypophosphites of lime and soda are incorporated in a wholesome syrup. Good results are uniformly reported from its use.

You will receive a full bottle of the syrup for test in your practice by writing to the McArthur Hypophosphite Co., Boston, Mass., and agreeing to pay express charges.

Farbenfabriken vorm. Friedr. Bayer & Co.'s
Pharmaceutical Specialties.

EUROPHEN.

This Product is formed by the action of iodine upon isobutylorthocresol. It possesses extraordinary value as a dressing in both simple and specific lesions. It has an agreeable odor and is, in all cases, a perfect substitute for iodoform. Europhen has been successfully employed by Drs. Petersen, Seifert, Szoldrski, Eichhoff and others, in the Dermatoses and many Inflammatory and Ulcerative Conditions, and has been given hypodermically in Syphilis. It is supplied in ounces.

PHENACETINE-BAYER.

As an Antipyretic, Analgesic, Anti-rheumatic and Anti-neuralgic, Phenacetine-Bayer is justly regarded as the safest and most effective of medicaments. In Acute, Inflammatory Fevers, Rheumatism, Neuralgia, Migraine, Bronchitis, Pertussis, Phthisis, and all affections in which fever, pain and restlessness, separately or together, are to be combated, it has an admirable influence. For INFLUENZA (or *"la grippe"*), Phenacetine-Bayer with Salol is our best remedy. It is supplied in ounces, in pills and tablets of 2, 3, 4 and 5 grains; and also in pills combined with Salol or Caffeine.

SULFONAL-BAYER.

Sulfonal-Bayer is a "pure hypnotic" because it gives a purely hypnotic action and produces no other effect. It is a "true nerve sedative" because its action continues after the remedy is discontinued. Sulfonal is used in all Insomnias, Insanity, and in all cases in which hypnotics are indicated. It is a *safe remedy*, and it does not give rise to a drug habit. Very reliable and effective, its action is slower than that of the narcotics; hence, care must be taken to give it as directed. It is supplied in ounces; also in tablets and pills.

ARISTOL.

In all Ulcerations, Skin Diseases, Lesions of the Eye, Ear, Nose, Mouth and other cavities; in Dysentary, Gonorrhœa, Ivy-poisoning, Burns, Scalds, Blisters and all external traumatisms, Aristol has shown itself to be a safe and effective remedy. It is also given (hypodermically), in Phthisis. It is used in ointments, powders, crayons, suppositories, oils, sprays, collodions, tampons, bandages, etc. Aristol Gauze is now widely used *in the place of Iodoform Gauze*, so long offensive to physicians. Aristol is supplied in ounces only.

DESCRIPTIVE PAMPHLETS FORWARDED ON APPLICATION.
